

ARTWORK PREPARATION 600mm x 900mm A Frame

A Frame Double Sided

Visual area: 600w) x 900(h)

Ensure that all text and logos are kept within this area.

Bleed area(s):

These 10mm areas are required for trimming.

For a clean finish on your A Frame make sure any back ground colours or graphics bleed off into these areas.

Setup:

Make sure all images are at least 300dpi at final size, if you are unable to source high resolution images it is recommended to request an at-size proof of a portion of your banner to check quality.

Acceptable file types

High Resolution PDF, Corel Draw 11, Adobe Illustrator, Photoshop TIFF, JPG (300dpi), EPS (Encapsulated Postscript). If your file contains type, make sure you send a copy all fonts used or convert all type to curves. (We cannot use Mac fonts so please convert these to outlines (curves))
